Secondary School Certificate (SSC)
Rani Bilashmoni Government Boys' High School
2018 – 2022 · Science Group

ADNAN BIN PULOK

Backend · Frontend · Systems · Automation

ABOUT

I build backend systems, APIs, and automation. Go for services that need to stay fast under load, Python when the priority is shipping quickly.

EXPERIENCE

Software Engineer — 2025 - Present

Kisti Ltd.

Backend work on APIs, databases, and production software.

- Backend services and internal tooling
- System design and implementation with the engineering team

Python · PostgreSQL · APIs · Backend

Backend Engineer · Automation · System Architecture — 2025 - 2026

Freelance

Backend systems, APIs, and automation for client products.

- Shipped 6+ production systems in e-commerce, fintech, and developer tooling
- Designed PostgreSQL schemas, REST APIs, and file storage pipelines
- Built automation that replaced manual order processing and content management
- Chose the stack per project: Go for performance, Python for fast API delivery

Python · Go · PostgreSQL · Redis · Docker · FastAPI

Discord Bot Developer — 2022 - 2024

Freelance / Contract

Custom bots and integrations for communities and small businesses.

- Discord bots with payment, moderation, and workflow automation
- Integrated third-party APIs for ticketing, payments, and data sync

FEATURED PROJECTS

PackKoro.com — WEB APPLICATION

E-commerce platform for a packaging supplier: product catalog, orders, and admin tools.

Python · FastAPI · PostgreSQL · Redis · Tailwind CSS

Go Media Storage — DEVELOPER PLATFORM

Self-hosted media platform with vault-based file access and automatic image compression.

Go · Fiber · pggo · PostgreSQL · Memory Cache

Ab TopUp — FINTECH

Digital recharge platform with payment flows, user accounts, and automated order fulfillment.

Python · FastAPI · PostgreSQL · Redis · Jinja2

PgGo — DEVELOPER TOOL

Typed PostgreSQL library for Go: generic Table[T] models, safe placeholders, CRUD, pagination, and optional cache.

Go · PostgreSQL · Memory Cache
